Any qualified school elector of a constituent district is eligible for appointment or election to the immediate school district.

Not more than two (2) members of the Board may be from the same school district, unless the number of constituent districts will not allow the intermediate board seats to be filled with this restriction. *(At this time, this restriction does not prohibit the appointment/election of an elector from any constituent district).*

As of the 2005 election, no more than three (3) members of the intermediate board may also be serving on the board of a constituent district or public school academy.

The candidate may not have been removed from the intermediate board by action of the Governor within three (3) years of having been elected or appointed to the intermediate board.

The Michigan Constitution was amended in 2010 to make a person ineligible for election or appointment to any state or local elective office if the person was convicted of a felony involving dishonesty, deceit, fraud or a breach of the public trust within the preceding 20 years, and the conviction was related to the person's official capacity while holding any elective office or position of employment in local, state, or federal government. Final candidates will be required to successfully pass a background investigation.
