“Spice up your future” at the Career Center’s Fiesta-themed Open House

Jackson, Mich.— The Jackson Area Career Center warmly invites the public to join in the excitement at this year’s fiesta-themed annual Open House on Thursday, Feb. 27, from 4:00-7:00 p.m.

“We hope everyone can stop by and see the great opportunities that the Career Center offers,” said Mark Pogliano, principal at the Career Center, “attending the Career Center provides high school students with an opportunity to explore their career interest in an environment that resembles the workplace, all while developing technical skills, earning industry credentials, and gaining college credits.”

The Career Center Open House will allow visitors, students, and families to participate in an array of activities while showcasing how students can get a jump-start on their futures in high-demand industries through Career Center classes. Instructors will be sharing with families and students what happens in classrooms as well as information on the high school and college credits, scholarships, and certifications that are available. Parents and visitors will enjoy refreshments and have the chance to talk with instructors and industry employers about the benefits of enrollment and future opportunities for their students.

“Our staff members come from the industry, and are very knowledgeable about the skills students will need to be successful in their careers,” said Pogliano. “It’s hard work, but students have a great time here. The teachers and staff are very willing to provide extra help so students can be successful.”

Students planning to attend for the upcoming 2014-15 school year will be able to speak with high school counselors from every Jackson county district about fall enrollment in Career Center classes; and representatives from South Central Michigan Works will be on-hand to work with students on interview skills for jobs.

The Career Center is located at 6800 Browns Lake Road, Jackson, MI 49201. More information is available at www.jacc-mi.net or 517-768-5100.
